Oberlin,
Ohio... in the
middle of the cornfields...
kinda like this carpet...
what the hell's it for?... we
don't know... makes you look
twice... pretty goofy, but at the
same time a little reassuring...
you love it... you hate it... you get
used to it... and then you're too
busy to deal with it... it's older
than you are... it'll be around
longer... it comes in a variety
of flavors and colors...
and after all, who
really cares about
style anyhow?

A photograph of a multi-level industrial facility, likely a refinery or chemical plant. The image shows a complex network of structural steel frameworks, walkways, and piping. In the foreground, there are large, dark, rectangular structures that appear to be storage tanks or processing units. The background is filled with more industrial equipment, including what looks like distillation columns or towers. The lighting is somewhat dim, with a few bright spots that could be lights or reflections from the sun. The overall impression is one of a large-scale, complex industrial operation.

Group Meeting!

Friday, 7:00 - 8:00
Wilder Bowl

Plans for Coffee House, get sloshed and cry in
yer beer party, Ultimate Frisbee team, elitist T-
shirt, and masturbation extravaganza to be
discussed!

PS. Please don't tear me down. I have as much a right to meetings as anyone.
I also have a right to free speech.

PPS: Tearing this sign down is a racist act. The intention of this sign is not to
slander any other groups, but to raise the issue (through humor) of the
separated attitude prevailing on Oberlin campus. The philosophical
extreme of this separatism, as the sign demonstrates, is that everyone
eventually excludes themselves into their own individual group without
ever trying to understand one another. This is what I fear is happening on
Oberlin campus.

I understand that it can be helpful for minority groups to associate
with people in similar circumstances as themselves. I too have this need.
"White male" is practically a bad word on this campus, but that is what I
am. If you find it offensive, then you are racist. Please, stop tearing down
my sign. And hey, if you feel left out, then you can make your own damn
sign. Just leave mine alone.

OBERLIN COLLEGE
STUDENT STRIFE AND DISSERVICES

TO: Oberlin College Students
FROM: Drastic Peon, Dean
DATE: October 29, 1993
SUB: **CANCELLATION OF FOOTBALL SEASON**

For your personal safety, the "Football Season" as presently constituted will not be allowed to take place on the Oberlin campus.

In recent years, there have been several instances of a "Football Season" being held in the grassy lawn between bleachers on North Campus. The "Football Season" has involved a demolition-derby type competition, which has resulted in minor injuries to students. There is an obvious potential for much greater injury. For this reason, "Football Seasons" will not be allowed to continue on the Oberlin campus unless, a cooperative competition which is less costly to the school is approved by the students.

THE AG-3 S-VHS-C CAMCORDER. SOME PROFESSIONAL ASSIGNMENTS REQUIRE EXTRAORDINARY MEASURES.

Panasonic's AG-3 brings an entirely new dimension to professionally featured video cameras. Never before has a camera this size incorporated so many features typical of larger professional grade video cameras.

The AG-3 features an imaging system based on a three, 1/3" CCD technology. Horizontal resolution is 530 lines, while image sensitivity is rated at 1 lux. A 10X manual zoom and 20X digital zoom provide sharp, certain close-ups. Electrical Image Stabilization assures a steady picture even under the most difficult circumstances. A digital time base corrector, digital noise reduction, digital effects such as snap shot, strobe shot, picture memory, WIPE & MIX, and a high-resolution Color Viewfinder are built-in. The AG-3 is even ready for advanced television with its 16x9 capability.

The AG-3 proves that it's not what the camera looks like that makes it professional. It's what the video looks like.
